

9:15-12:15 Uhr: Panel: Lottocracy, Citizen Assemblies and Council Democracy (Rätedemokratie). What do these approaches contribute to a more socio-ecologically just future?

With Uffa Isop, Jason Chrysostomou, Heide Hammer, Pedro Jacobetty und Maria von

Peoples Platform (Saalfestlegung nach Anmeldungen).

Around the world and in the human history there are a lot of different egalitarian and democratic practices to devide power: seasonal system changes, rotations, Lottery decisions, laughing at, carnevalesque reversals of power, clowning, controlling institutions, elections, matriarchy, matrilinear societies and many others...

We want to discuss the possibilities of citizen assemblies, council democracy and lottocracy. Like they are discussed at

<https://equalitybylot.com/category/distribution-by-lot/>

Since 1970es we can see a spreading of citizen assemblies all over the world as you can observe on these homepages: <https://sfb1265.github.io/mini-publics/>

<https://www.buergerrat.de/buergerraete/buergerraete-weltweit/>

We are looking forward to discuss with you!
